

# ***“THE WATERLESS SHOCK-IR”***

For Rapid Thermal Shocking of the Surface of  
Freshly Extruded Rubber/Polymer Products.

Features:

- No Water Cooling Required
- High Watt Densities (30 KW)
- Quartz Split Tube Isolator (opt)
- Oven Open Detector (opt)
- Elevation Screw Jacks (opt)
- Floor Leveling Jacks (opt)
- Single or Multizone Control (opt)
- HMI/PLC Operation (opt)
- Selectable: AUTO/MANUAL Control (opt)
- Heating Lamp Burn-out Detector (opt)
- Non-Contact Temperature Detector (opt)
- Automatic Temperature Control (opt)
